VIRTUAL WEBINAR (ZOOM)
1:00 PM TO 3:00 PM

Register at: https://www.cpsds.org

The first webinar in the Human Trafficking Task Force and Artificial Intelligence (AI) webinar series will explore the unexpected consequences of widespread artificial intelligence tools that are readily available to the public. While these tools were originally created to foster innovation and aid progress, they have inadvertently provided human traffickers with enhanced capabilities to further their heinous acts.

Join us for an enlightening 90-minute webinar as we uncover the misuses of these technologies, shed light on real world scenarios, and discuss proactive measures to prevent such abuses, ensuring that technology remains a force for good in our society.
