## Tools and Resources

Resource | DHS

### Potential Threat Vectors To 5G Infrastructure

CISA, in coordination with the National Security Agency, and the Office of the Director of National Intelligence, as part of the Enduring Security Framework (ESF)—a cross-sector, public-private working group—released a Potential Threat Vectors to 5G Infrastructure paper. This paper identifies and assesses risks and vulnerabilities introduced by 5G.

### CISA Insights

Informed by U.S. intelligence and real-world events, each CISA Insight provides background information on particular cyber or physical threats to the nation's critical infrastructure, as well as a ready-made set of mitigation activities that non-federal partners can implement. This page is continuously updated to reflect new CISA Insights as they are made available.
