Protecting Federal Facilities: Interagency Security Committee Standard

The Risk Management Process for Federal Facilities: An Interagency Security Committee Standard (RMP), 2021 Edition defines the criteria and processes that those responsible for a federal facility's security should use in determining its security level. This standard provides an integrated, single source of physical security countermeasures and guidance on countermeasure customization for all nonmilitary federal facilities.

Possible Indicators of Criminal Offenders Mobilizing to Violent Extremism

A review of cases during the past several years indicates that some criminal offenders may be susceptible to radicalization and mobilization to the full spectrum of violent extremism possibly because of shared drivers and/or motivations between violent extremism and criminal activity.
