JCAT: Threats Against Houses Of Worship

Houses of worship, faith-based organizations (FBOs), and faith leaders will probably continue to be targets for violent extremists adhering to different violent extremist ideologies, some of whom may be hate crime perpetrators. Enhanced communication, coordination, and training among federal entities, state, local, tribal, and territorial first responder agencies, religious community groups, and private sector partners can improve security protocols, increase awareness of suspicious activity indicators, and ultimately improve the ability to prevent, detect, deter, and disrupt potential plots.

Suspicious Activity Recognition Training

There are times, in churches, and houses of worship, when things don't seem right & nothings done. Prevention is key to avoid issues. Be Prepared, Deter, Detect, Delay a problem until you can get backup, Defend any there and Deal With, and Defeat Danger. Be Prepared.
