Women and Terrorism

U.S. policymakers overlook the roles that women play in violent extremism—including as perpetrators, mitigators, and victims—and rarely enlist their participation in efforts to combat radicalization. This omission puts the United States at a disadvantage.

Best Practices for Screening Against Terrorist Attacks

Terrorists will most likely use a variety of tactics to attach and hide items, such as GPS trackers, Wi-Fi positioning system (WPS) locators, and IEDs to target, track or attack vehicles. The placement location of such devices will vary depending upon a variety of factors, such as the device's purpose, size, construction, and installation time.
