DHS Center For Faith-Based And Neighborhood Partnerships Resources

Fires, tornadoes, floods, hurricanes, earthquakes, arson and active shooters can all affect houses of worship. With incidents occurring with little to no warning, many houses of worship are developing and updating plans and procedures to ensure the safety and security of their congregations, staff, and facilities.

New Standards in Physical Security

Many of the security screening standards in use today were put in place decades ago. They addressed the threats at the time and employed the security screening equipment that was available. The threat landscape has changed, and the breadth of vulnerable venues has expanded, yet the predominant security screening technologies in use today are still the ones developed decades ago.
